

JJ Plastalloy Pvt. Ltd.

Injection Molding

Want Colorful Injection Molded products

Use JJ Plastalloy Masterbatches

- A huge range of colours having various effects like Pearl, Metallic, Flourscent, Gloss, Matt
- High light fastness Colour Masterbatches thereby increasing the product beauty under direct sun light
- Universal Colour Masterbatches for wide range of polymers like PE, PP, PET, ABS, PC, PMMA and others
- Absolutely Consistent colour batches after batches since Quality In Quality Out (QIQO) Methodology used to manufacture these Masterbatches
- Heavy Metal Free Pigments used thereby the Masterbatch can be used for Direct Food Contact application.
