

**JJ Plastalloy Pvt. Ltd.**

**Non Woven**

## Looking to increase Output and Appearance of Colour Fabrics

Use JJ Plastalloy Colour Masterbatches having following features:

- Excellent Dispersion hence no issue of Frequent Mesh Choking, Increased time interval to clean the filters
- Absolutely Uniform colour batches after batches since Quality In Quality Out (QIQO) Methodology used to manufacture these Masterbatches
- Very high Heat Stability. No chances of any burnt particles or carbon deposition
- Recipe designed in a way which ensures minimum generation and auto dissipation of Electrostatic Charge.
- Very fine size and very high filterability raw material used which ensure product gives excellent performance even in low GSM Fabrics
